We will have to start providing a head count to Del, so we know we will have a meal for everyone!

6:25pm Club meeting called to order

Safety Field Sign: The field sign was installed prior to the meeting, great job, Clay. Thanks to Jason for the posts, and the club provided the PT wood backing supports. Thanks to all that helped.

New business:

- Again, we discussed what can be done to improve our runway, and agreed that something should be done this fall to improve our runway and drainage, if we plan to have a useable runway next year! A study group was formed to evaluate and study what way would be most cost effective, and best way to improve the runway. All members agreed that \$100 from each member would be a great start to getting enough money to improve the runway!
- Gene Hankins addressed the safety issue of taxiing your plane back to your flying station. Let us all continue to address these safety issues.

Old business not addressed from Feb meeting:

- A request to establish work tables to the south of wind sox was proposed and a few members agreed to evaluate type material and procurement. Still pending. Also a helicopter pad was proposed in the same area, but development of both is still pending.
- A general discussion of upcoming scheduled events was discussed.
- UCRCS Swap Meet and Fun Fly is scheduled for July 11th. The flyer for this event will be put out by Holly soon!
- A cleanup/prepare work will be 2 hours before our next meeting on July 9th. Please come and help us prep the field to make it look good for our event!
